6. GENERAL FEATURES

Energy Z100 ™ Mini Music Box speaker can connect any external audio player (such as an MP3 player or laptop) and amplify the sound itself, thanks to the line input ⑤. Also it can be connected to headphones through output ① for private listening.

"LINE-IN" FUCTION

To use line in playback, connect the mini USB audio cable end to your Energy ™ Mini Music Box Z100 ⑤, and the other 3.5 mm jack cable end to the audio output of any device like an MP3 player, a handheld computer, etc ...

Xtended Bass (XTB) FUNCTION

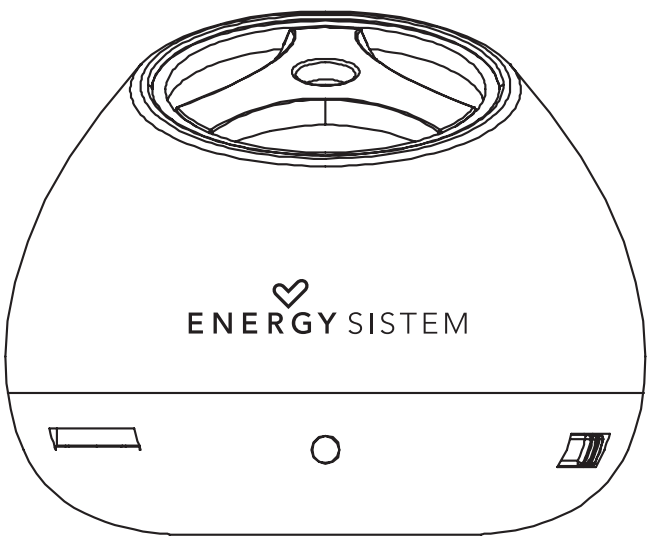
The Xtended Bass (XTB) function is enabled by

unscrewing the speaker. It is an acoustic enhancement system that provides an increase in bass power.

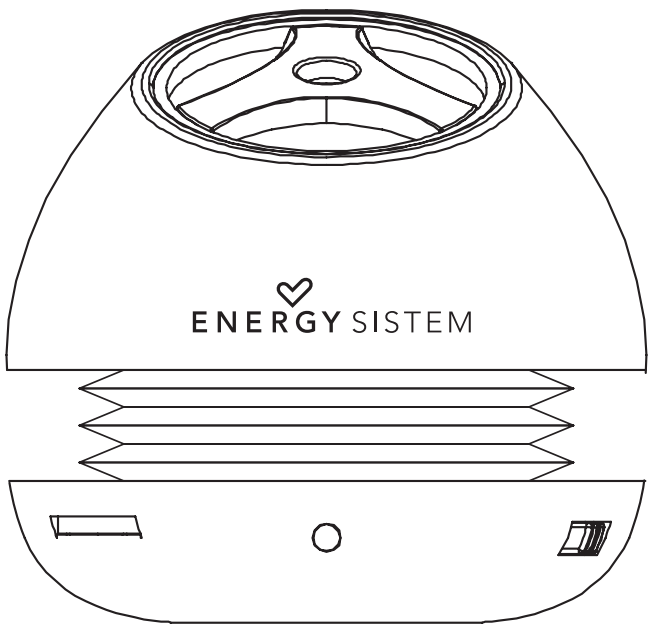
To unscrew the speaker, you just need to gently turn counter-clockwise the top half.

To return it to its compact position, push together the two halves this time and turn clockwise until both fit tightly.

XTB disabled



XTB enabled



MP3 FUNCTION

To activate the card reader MP3 it is necessary to put a micro SDHC card into the ZIOO slot ⑥ and positioning the switch ② below the memory card icon. LED lamp ④ will flash with red and blue color, and then start playing MP3 music tracks.

Keeping the control wheel ③ on the far left side or far right side, respectively decreases or increases the volume.

Sliding the wheel quickly to the right ⏭ and pulling off, jumps to the next track. Sliding the wheel quickly to the left ⏮ and pulling off, jumps back to the previous track. Pressing the wheel ⏵ ⏸ will pause or stop playback. To turn off the speaker simply place the switch ② in OFF position.

CHARGING

When the speaker lacks sound or can not read the memory card, it's time to recharge. Plug ⑤ the mini USB cable end to your Energy ™ Mini Music Box Z100 and the other USB end to any other device with USB port that provides energy (such as a PC, a USB wall charger ...). LED lamp ④ will turn red when charging. Charge will end when LED light stops.
